

# The 'Acts of Kindness' Tree

Take the time to spot random acts of kindness today. It might be something that a friend has done to be kind to another person. Let's celebrate being kind and the festive spirit by creating a kindness tree! Cut out the triangles to create a big tree to inspire others to be kinder!

This could be an activity that you complete on your own or as part of a group.

Four green-outlined triangles arranged in a larger square shape. Each triangle has the text "Spotted being kind" at its top or bottom edge and five horizontal lines inside for writing. The triangles are arranged in two rows of two.
