Deer Park Primary School
PHONICS CURRICULUM

Our Ultimate End Goal:

At Deer Park Primary School, we believe that all our children can become fluent readers and writers. This is why we teach reading through Little Wandle Letters and Sounds Revised, which is a systematic and synthetic phonics programme. We start teaching phonics in Reception and follow the <u>Little Wandle Letters and Sounds Revised progression,</u> which ensures children build on their growing knowledge of the alphabetic code, mastering phonics to read and spell as they move through school.

As a result, all our children are able to tackle any unfamiliar words as they read. Deer Park Primary School, we also model the application of the alphabetic code through phonics in shared reading and writing, both inside and outside of the phonics lesson and across the curriculum. We have a strong focus on language development for our children because we know that speaking and listening are crucial skills for reading and writing in all subjects.

At Deer Park Primary School, we value reading as a crucial life skill. By the time children leave us, they read confidently for meaning and regularly enjoy reading for pleasure. Our readers are equipped with the tools to tackle unfamiliar vocabulary. We encourage our children to see themselves as readers for both pleasure and purpose. Because we believe teaching every child to read is so important, we have a Reading Leader who drives the early reading programme in our school. This person is highly skilled at teaching phonics and reading, and they monitor and support our reading team, so everyone teaches with fidelity to the Little Wandle Letters and Sounds Revised programme.

Little Wandle Letters and Sounds Revised 2021: Programme progression

Reception and Year 1 overviews

This programme overview shows the progression of GPCs and tricky words that we teach term-by-term. The progression has been organised so that children are taught from the simple to more complex GPCs, as well as taking into account the frequency of their occurrence in the most commonly encountered words. All the graphemes taught are practised in words, sentences, and later on, in fully decodable books. Children review and revise GPCs and words, daily, weekly and across terms and years, in order to move this knowledge into their long-term memory.

Children need to learn to read as quickly as reasonably possible, so they can move from learning to read, to reading to learn, giving them access to the treasure house of reading. Our expectations of progression are aspirational yet achievable if schools maintain pace, practice and participation by all children. Children who are not keeping up with their peers should be given additional practice immediately through keep-up sessions.

Phase 2 tricky words

Tricky words are words that cannot be decoded easily. We use many of these tricky words often and they are used early on in decodable books, so it is important for children to be able to read them fluently. We teach tricky words by identifying the 'tricky part' and the sound it makes, then sounding out and blending the word as normal.

The tricky words for Little Wandle Letters and Sounds Revised are the original tricky words from Letters and Sounds, combined with the Common Exception Words from the English National Curriculum Year 1 and 2 Spelling appendix. The table below lists all the tricky words taught in Phase 2 and explains why they are tricky. The words are listed in order of progression. Some of them become decodable later in the programme as children learn more GPCs.

	Tricky word	Why is it tricky?	How to teach
R Au1 wk3	is	The grapheme 's' makes the sound z. Children have only learned the sound s as in 'sat' at this stage.	Point to 's'. Say: This grapheme says z.
R Au1 wk4	I	The grapheme 'i' makes the sound igh. Children have only learned the sound i as in 'pin' at this stage.	Point to 'I'. Say: This grapheme says igh.
R Au1 wk5	the	The word 'the' has two tricky parts: the digraph 'th' is not yet decodable and the grapheme 'e' makes the schwa sound 'uh'.	Point to 'th'. Say: This digraph says th. Point to 'e'. Say: This grapheme says uh.
R Au2 wk1	put*	The grapheme 'u' makes the sound oo (as in 'book'). Children have only learned the sound u as in 'cup' at this stage.	Point to 'u'. Say: This grapheme says oo.
R Au2 wk1	pull*	The grapheme 'u' makes the sound oo (as in 'book'). Children have only learned the sound u as in 'cup' at this stage.	Point to 'u'. Say: This grapheme says oo.
R Au2 wk1	full*	The grapheme 'u' makes the sound oo (as in 'book'). Children have only learned the sound u as in 'cup' at this stage.	Point to 'u'. Say: This grapheme says oo.

Phase 5 tricky words

Tricky words are words that cannot be decoded easily. We use many of these tricky words often and they are used early on in decodable books, so it is important for children to be able to read them fluently. We teach tricky words by identifying the 'tricky part' and the sound it makes, then sounding out and blending the word as normal.

The tricky words for Little Wandle Letters and Sounds Revised are the original tricky words from Letters and Sounds, combined with the Common Exception Words from the English National Curriculum Year 1 and 2 Spelling appendix.
The table below lists all the Phase 5 tricky words. It includes tricky words taught in Phase 5 but also Phase 2, 3 and 4 tricky words that are still not decodable. Phase 2, 3 and 4 tricky words that are decodable at the beginning of Phase 5 are excluded.
The tricky words for each phase are listed in order of progression. Some of them become decodable later in the programme as children learn more GPCs.
