

Support

Supporting people makes us feel positive and makes them happy too!

Have you ever noticed a large number of cars parked around school in the morning or after school?

This can often annoy drivers and local people. Fumes from cars increase air pollution and are also one of the things causing climate change.

How will you travel to school to help support the wellbeing of others and the planet?

- Move More Monday | Happy Shoesday
- Wheelie Wednesday | Feet First Thursday
- Fume free Friday
